HANDWRITING PROJECT — INFORMATION & GUIDELINES

This document is an information checklist for people considering a handwriting project. Please read all project-specific terms and obtain written confirmation before starting.

1. Project formats

Format	Page count	Confirm before accepting
Project 1	50 pages	Writing sample, deadline and quality rules
Project 2	90 pages	Writing sample, deadline and quality rules
Project 3	120 pages	Writing sample, deadline and quality rules

2. Before you register

• Ask for the complete project description, sample pages and acceptance criteria.

• Confirm the exact number of pages, both-side/one-side writing requirements, paper size, ink colour and permitted corrections.

• Get the start date, final submission date, delivery method and the name/contact details of the responsible project representative.

• Ask for a written statement of every charge, if any, including its purpose, refund policy and receipt details. Do not pay an unexplained or pressure-based fee.

3. Payment and earnings

• Obtain the total payment amount, payment milestones, conditions for approval and expected payment date in writing.

• If an advance is offered, confirm its exact percentage, timing and any conditions in a written agreement before beginning.

• Do not rely on advertised income ranges as guaranteed earnings. Actual payment may depend on verified work, quality checks and the written agreement.

• Keep copies of receipts, messages, the agreement and submitted-work acknowledgements.

4. Writing and delivery checklist

• Follow the approved sample and instructions consistently.

• Keep pages clean, legible, complete and in the required order.

• Check spelling, page count and corrections before packing or submitting.

• Use a trackable delivery method when physical pages are requested and retain the tracking receipt.

5. Important verification notice

Global Publication Company should provide verifiable business/contact details and written project terms. Do not describe this opportunity as government-approved, government-verified or certified unless valid documents can be independently checked. This PDF is a general guideline, not proof of company registration, government approval, guaranteed work, guaranteed income or a promise of payment.
